Artist
Temperature and Humidity Plus Weather Forecast

With a special ZOGLAB concise design and professional environmental measurement technology, the 14.5mm thin-yet-light Artist is a work of art more than a weather reporter. Innovative weather model algorithm ensures a quasi professional weather report. Optimized SSD algorithm relates temperature and humidity body feeling with human-expression icon.Ultra low power design allows once charge for a continuous 400-day use. Top class LCD display enables time, alarms and other values to be extremely clear.

Artist Temperature and Humidity Plus Weather Forecast

Large LCD with wide view angle, ergonomic design
14.5mm thin and fashion style, offers a variety of installation
High accuracy measurement, weather forecast
Ultra low power design with single Li-polymer battery
High or low limit alarm, MAX/MIN/AVG query

Large LCD with Wide View Angle

Large FSTN technology LCD display with wide view angle, for much more clearer display, user can read easily even under 170°

16.3 ℃
58.2 %RH

Professional Weather Forecast

Artist shows weather states in the next 6~12 hours for an area with the radius of 15km. Its accuracy reaches about 75%.

Sunny   Cloudy   Rain   Frost and Snow

Technical Data

Sensor model	NTC/Digital sensor
T Measuring range	-20℃~70℃
T Accuracy	±0.3℃(23℃±2℃), ±0.5℃(FS)
T Resolution	0.1℃/ 0.2℉
H Measuring range	0%~100%RH
H Accuracy	±3%RH(10%~85%RH)
	±5%RH(Other range)
	±2%RH(High accuracy)
H Resolution	0.1%RH
Battery	Li-polymer 1200mAh
Battery lifetime	400 days for single recharge (200 cycles for battery life)
Weight	200g
Dimensions	100×151×14.5mm

Time Display with Week

Built-in high accuracy timer, real-time display week, time, date, year, etc.
